GOLANG

LATEST PROJECTS

Golang Rest-API This is a back-end written with golang, a language good for servers. It uses Cobra library to make it a CLI tool.

Visit Project : https://github.com/Hamaiz/rest-api-golang

Pillomart This is a full stack node js website. It is made with express, mongoDB, sass, ejs. It also has an admin pannel. It is a shopping website

Visit Project : https://pillowmart.herokuapp.com

MovieEye This is a React application that uses TMDB API to display all the movies

Visit Project : https://movieeye.herokuapp.com/

ChatterApp This is a MERN stack that uses Node js andsocket.io along with React to make a realtime chat.

Visit Project : https://chater-room.herokuapp.com/

WORK EXPERIENCE

2018 - Present

I have been working on various projects from scratch.

I have managed content and have hosted websites.

I have developed highly robust Front-End products in React that connect to RESTful Microservices.

I have developed highly functioning Node js apps with full database.

FULL-STACK DEVELOPER

Designed unique UI experiences for various self made businesses.
